

**Diversity and Community Involvement
Student employment opportunities**

We are seeking students to work with Diversity and community Involvement (DCI) for the 2007/2008 academic year, and possibly for this upcoming spring and summer. DCI includes VISION, the Women's Center, the LGBT Resource Center and the Center for Multicultural Affairs. Most of our positions are paid through college work-study funding, although there are a few that are not. Many of the VISION coordinators and programmers are volunteers. Also, in the past, students have been able to use the experience as an internship and /or independent study.

Qualifications: Student with initiative, organized, open-minded, and reliable.

If you are looking for a meaningful work experience where you can have an impact, please contact Peggy Harless regarding student employment.
